CatManDo Ties New Website to Third Party Administration Services

Tampa, FL 12-13, 2007 – CatManDo, Inc. a full service independent claims adjusting firm, announced the redesign of its website, www.catmandoinc.com. The site is packed with new features for insurance carriers, claim adjusters, contractors and client policyholders. It will feature the latest industry news of interest for insurance adjusters as well as an online application for contractors who want to service CatManDo clients. Visitors will be able to conveniently access current weather conditions from major Florida cities and track impending severe weather. Adjusters can sign up for continued education offered through CatManDo and there are tips for policyholders preparing to file a claim. Website visitors can also search for the location of any CatManDo adjuster.

One of the key highlights of the site is the integration with CatTracks, CatManDo's claims management system that automates the claims tracking and adjusting administration process. CatTracks was developed to better service CatManDo's third party administration clients and adjusters. It offers secure access to claims data as well as advanced document management capabilities. Users will simply log into the system through CatManDo's home page from any location with internet access. "We believe we are one of the first independent adjusting firms to offer a comprehensive, web based system that is easy to customize to each clients adjusting specifications," commented Chuck Ross, President of CatManDo. "Our new website access to CatTracks is an extension of our philosophy to offer true transparency to the claims adjusting process." Some of the clients who will be utilizing CatTracks include Southern Oak Insurance Company and American Keystone Insurance Company.

CatManDo Inc. is a full service independent insurance adjusting company, providing accurate, cost-effective and reliable claims adjusting services to insurance carriers on a national level. The firm was founded in 2000 with the express purpose of providing a higher quality of claims service than is currently available. We do this by utilizing years of inside insurance carrier experience and maintaining a broad network of highly trained and qualified adjusters.
